

Advancing Radiopharmaceuticals from Development to Commercialization

NorthStar is a commercial-stage radiopharmaceutical company providing high-quality therapeutic isotopes and integrated CDMO services to support radiopharmaceutical programs from early development through commercial manufacturing.

Proven Execution

First to market with Cu-67

First commercial-ready,
scalable, no-carrier-added
(n.c.a.) Ac-225

Technical Prowess

Proprietary technology and
specialized isotope production
infrastructure

State-of-the-art CDMO
facilities supporting
development through
commercial manufacturing

Vertically Integrated

226,000-square-foot campus

Ac-225 and Cu-67 isotope
irradiation and processing

Integrated
radiopharmaceutical CDMO
capabilities

OUR PEOPLE

World-Class Expertise Under One Roof

Multidisciplinary expertise across:

Radiochemistry

Nuclear
Engineering

Health Physics

Global Regulatory
Requirements

300+ Employees

60%+ STEM Degree

OUR CAMPUS

A Vertically Integrated Radiopharmaceutical Campus

55-Acre Campus
Beloit, WI

226,000 SF
of Integrated Infrastructure

Two R&D facilities
in Madison, WI

RECENT MILESTONES

Accelerating Innovation in Radiopharma

2023		Cu-67 Production	First Cu-67 customer shipment.
2024		CDMO Operations	First sponsor R&D project completed.
2025		Ac-225 Production	First Ac-225 customer shipment
2025		Ac-225 Production	First clinical patient dose shipped.
2026		DMF Accepted	FDA acceptance of Drug Master File for n.c.a Ac-225
2026		Accelerated Production	High capacity Ac-225 production line

GLOBAL REACH

Delivering Finished Drug Product & Isotopes Worldwide*

Global Reach

24/7 logistics supporting customers across the globe.

* Countries served as of Q4 2026

PRODUCTS & SERVICES

One Partner. From Isotope Supply to Commercial Manufacturing.

Isotope Supply

Commercial-scale isotope production including:
Ac-225 | Cu-67

R&D Services

Radiolabeling, formulation, method development and process optimization.

Clinical Manufacturing

Technology transfer and Phase I, II and III clinical trial manufacturing.

Commercial Manufacturing

cGMP manufacturing, fill-finish, analytical and microbiological capabilities, and commercial supply support.

Ac-225 | Cu-67 | Lu-177 | Cu-64 | Zr-89 | In-111
